

Non regular Library activities

Herald Boevenbrink, AKC
Nov 2017

Special services

- Project Electronic Lab Notebook selection
 - ELN needs to run in a browser, i.e. SAAS (Software as a service)
 - This is very helpful in limiting internal IT support, upgrades no longer requires new software to be installed and no migration project for data transfer is needed
 - Data will be stored in datacenters the vendor recommends, but matching criteria we set (i.e. European servers) Usually this is at Amazon Cloud or Microsoft Azure
- Admin services and policy Electronic Lab Notebook
- Admin services and policy Chemical Inventory management at Laboratories
 - We use CisPro from BIOVIA
- Work in progress
 - Administration of *Applications, Functions, Chemical Names & Structures* of the products of AkzoNobel Chemicals, visible on the product page of AkzoNobel and part of the Product Information Management tool
